PATIENT CHAIR

The NephroChair™ is expertly designed to maximize comfort and safety for patients during hemodialysis sessions. This modern chair features an ergonomic build that provides tailored support and adjustability to suit diverse patient needs and body types. It includes a plush memory foam mattress and offers a range of adjustable options, including reclining positions to minimize fatigue and customizable armrests that support the vascular access arm during treatment.

For added convenience and safety, the chair is equipped with lockable wheels for secure positioning and an accessible control panel that enables patients to independently adjust their seating. The upholstery is not only integrated with padding for superior comfort, but also crafted from easy-to-clean materials that meet stringent healthcare hygiene standards.

Enhancing the patient experience, the NephroChair™ can be equipped with a variety of additional features, including massage functions and a built-in weighing scale. Customization options for branding and colour palette are also available, ensuring the chair seamlessly integrates into any healthcare environment.

NEPHROCHAIR CHARACTERISTICS
